FOREWORD

The 1977 edition of the directory of *Mental Health Resources in the Greater Washington Area* has been prepared by Public Inquiries Section, National Clearinghouse for Mental Health Information, Division of Scientific and Public Information, National Institute of Mental Health. Originally designed for use within NIMH, the directory is now distributed to groups and individuals outside the agency who have indicated a need for such a listing.

The Washington area has been divided into four districts: District of Columbia, Montgomery and Prince Georges Counties, and Virginia. The State Mental Health Authority and Mental Health Associations are listed for each district. The resources of each district are then listed in the order of area served, from those without any restrictions or residence requirements to those limited to the immediate neighbohood.

Such an arrangement will help locate all of the resources available as quickly as possible. Thus a call for help for an emotionally disturbed child residing in Prince Georges County can be referred to the resources listed under Prince Georges County Children and also to the resources in the other districts that have no residence restriction or that accept children from the entire metropolitan area.

For ready reference, special sections list emergency, information and referral, after-care, alcoholism, and miscellaneous services. Information on drug abuse help and facilities can be obtained from the National Institute on Drug Abuse, 11400 Rockville Pike, Rockville, Maryland 20852; telephone: 301, 443-6500.
